# Peter's Railway

PetersRailway.com

## DESIGN A TRAIN COMPETITION

### Have a go at designing your own train

Can you show what makes it go and where the passengers sit?

You can include all the details you like: Wheels, track, engines, seats... all the parts which make up a train.

The design can be like a real train, or a fantasy one - let your imagination run free!

You could even use little arrows and words to explain what the different parts of your train are for.

### How to Enter:

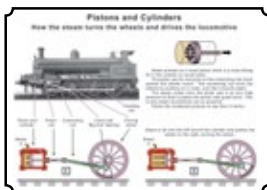

Hand your design to the party organiser at any of the participating railway stations. (see website).

The winners at each station will win a signed copy of the first Peter's Railway hardback book!
